**DETAILED ACTION**

***Election/Restrictions***

**Claims 4-15, 17-19, 23, 26, 28, 29, 32, 33, and 36** are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species.

Election was made **without** traverse in Paper No. 12.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

**Claims 1-3, 16, 20-22, 24-25, 27, 30-31, and 34-35 are rejected under 35**

U.S.C. 102(e) as being anticipated by **Jarvik, et al.** The cited patent discloses an inlet conduit configured to be inserted into a source of oxygenated blood, the inlet conduit having an inlet end, an outlet end and a lumen extending between the inlet end and the outlet end; an outlet conduit having an inlet end, an outlet end and a lumen extending between the inlet end and the outlet end, the outlet end configured to be inserted into the patient's coronary venous vasculature; a coupler for coupling the outlet end of the inlet conduit to the inlet end of the outlet conduit.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
